BUSINESS INFORMATION

Emiltrafo S.r.l enters into Kendeil' s Group.

Gallarate, Italy, November 30th 2017 – Kendeil announces today the acquisition of Emiltrafo S.r.l, a leading Italian producer of low power transformer. This operation is part of the strategy of Kendeil' s Group to enlarge its product' s portfolio in the industrial power applications, in particular this acquisition creates important synergies between key customers and market segments.

Angelo Bonini, President, KENDEIL Group commented, “Emiltrafo represents a benchmark in the market of high quality low power transformers. *We are very satisfied about this acquisition because Emiltrafo product' range will create important sales synergies with our power capacitor lines in order to improve our capability providing a product' s package always more large to our customers.*”.

Salvatore Facchin, President and Founder of EMILTRAFO added, “*Kendeil's proven ability to innovate during all these years together with the opportunity to benefit of a worldwide sales network will enable Emiltrafo to grow and consolidate its presence in several markets. I am convinced it is a fantastic opportunity for our company*”.

About KENDEIL

Kendeil Group is one of leading producers of power electronic components such electrolytic, DC link film capacitors and aluminum foil for electrolytic capacitors (Satma ppc brand) with more than 38 years of experience. These products are made with advanced equipments, integrated technologies and advanced and vertical production processes, which are regularly updated to meet the highest international standards performance and quality. Kendeil Group has three production plants in Gallarate (Italy), Goncelin (France) and India (Bangalore) and a net sales in more than 36 countries. www.kendeil.com

About EMILTRAFO

Emiltrafo designs and manufactures low voltage transformers, for different types of applications such as industrial automation, power electronics and railways signaling. The company was founded in 1980 with the aim to provide customers with customized and high quality solutions. Since then Emiltrafo designed more than 10,000 kinds of low-voltage transformers, to meet changing needs and specific request. Quality, customer orientation and flexibility are the basis of the company' s philosophy. www.emiltrafo.com
