

ALUMINIUM ELECTROLYTIC CAPACITORS

TRANSFER PRODUCTION DURING MARCH 2010

Arese, 2 February 2010

Kendeil announces that during March 2010, the production will be interrupted for 2 / 3 weeks to allow the complete relocation equipments in the new plant of Gallarate, which will start its activity at the end of same month.

For this reason, Kendeil recommends to all the customers to get in touch with the sales department of the company in order to plan common actions that can minimize the possible discomforts or satisfy specific needs.
